

VCA Green Acquires Verde, LLC

December 21, 2021

IRVINE, CA – VCA Green, and division of VCA Consultants, Inc. (VCA Consultants), acquired Verde, LLC (Verde), a sustainability engineering firm servicing national and international companies. Verde is based in Aliso Viejo, CA.

VCA Green provides comprehensive green building and commissioning services to building owners and architects. With the addition of Verde, VCA Green expands its presence throughout California and Hawaii. Verde will operate as Verde, a division of VCA Green.

Robyn Vettraino, Verde President adds, “We are excited about becoming part of the VCA family! VCA’s culture and core values are a perfect fit with us and our clients. With VCA’s backing, we have a great opportunity to grow by expanding our services and client base.”

VCA Consultants CEO, Tom VanDorpe, explained, “Verde has a strong reputation for delivering quality sustainability and energy consulting service to its customer, consistent with our core values. With the addition of Verde to the family, we’ve increased our presence the Southern California market and our ability to effectively and efficiently serve our customers as well as expanding our presence in the Northern California.”

VCA Consultants is an engineering firm providing various consulting and engineering services, primarily structural engineering, sustainable energy building consulting and plan review services, to private and public entities throughout the western United States. VCA Consultants operates as a portfolio company of G. Scott Capital Partners, LLC. Scott Capital is a Connecticut based private investment firm that partners, for the long-term, with managers of middle market companies. Further information on Scott Capital is available at www.scottcap.com.
